

SING SMART

We've got the **GREEN** light! We can sing in school again!

Use **SING SMART** to help you stay safe **#THAMESsings**

Singing in the classroom bubble is allowed

Inside, outside: sing side by side & not face to face

Numbers: whole class – yes; choirs – 15 singers only

Grown-ups leading choirs: stand 3m from the front

Socially distance in choirs: 2m between each singer

Music & lyrics should be on a whiteboard only

Air must circulate: open windows during/after singing

Remember : sing quietly. No shouting at this time

Twenty is plenty! Short sessions are best, 20/30mins

SING SMART Ideas

Singing safely with gentle warm-ups: stretch the body, pull a funny face, hum, singing an easy song that everyone knows.

Following the lockdown, focus on song that your children ENJOY! Promote songs about friendship, togetherness, happiness and the future. Seasonal songs too!

Link with the curriculum:

- Read an alien word and sing it like an alien!
- Sing Head, shoulders, knees & toes but replace with times tables or phonic rules!
- Link learning about the world with folk songs and have fun singing in a different language!
- BBC Teach radio has excellent cross curricular videos with songs, particularly for history.
